Off the back of a truck...

Like all good success stories, Skaüswood starts off from the back of a van. But not just any old van. This van is called Holly. Holly is a Teal Blue '97 LDV Convoy 400. After 20 years as a school bus at an all girls school (named Holly Lodge) in Liverpool, Rob bought Holly and the next chapter of her life began. After 6 months of hard work she was finally transformed from a bus full of hidden chewing gum into a cosy camper-van, somewhat resembling a Swiss chalet, which Rob would go on to call his home for the next 5 years.

In early 2019, using skills gained during his formal architectural training and years of practice, Rob started designing and selling intricate, wooden artwork. He made these using the laser cutters of a community maker space in Liverpool called DOES Liverpool. He dabbled in bits of jewellery at this time but the majority of his focus was on making artwork, exploring the nuances of colour theory and honing his skills with Birchwood. This change of direction was only possible thanks to the reduced overheads of living in a van.

Rob's ambition since finishing the conversion was always to travel but he knew this would require putting his design work on hold. However, in January 2020, just two weeks before embarking on a ferry to Amsterdam, he made a pivotal decision. After extensive research and calculations, he acquired his very first laser cutter (this would later be named 'Baby Bear'), it cost £300.00 and was a Chinese made K40. It was compact yet powerful enough to cut through 3mm Birchwood up to the size of an A4 sheet.

It was smaller than what he'd been used to, but if his energy calculations were accurate, it would allow him to continue designing and crafting while on the road.

After spending a week visiting friends in Amsterdam, Rob installed Holly's first set of solar panels on the outskirts of town, consisting of 2 x 100W Polycrystalline rigid Solar Panels. He anxiously awaited the moment of truth - could he truly power a laser cutter using only solar panels and a battery? The exhilaration he felt when everything fired up and his calculations proved correct was unforgettable. His dream became a reality.

France went into lock-down & Holly didn't move for 10 weeks.

Their journey took them to Brussels and eventually to the French Alps, however their plans were abruptly halted when President Macron announced a nationwide lock-down with immediate effect due to COVID-19. Rob and Holly remained stationary for 10 weeks, giving Rob the opportunity to put his mobile art studio to the test. During this period, he designed a new range of earrings and pendants inspired by his natural surroundings, he named this range "Adventures Before Tea" (page 18).

K40 Laser cutter in action powered by 2 x 100W polycrystalline Solar panels (left), Office space (centre) Holly parked in the Vallée de La Clarelée on the French-Italian border with studio in full set up (right).

Holly on the move through Col Du Galibier, France (left) and Skaüswood's spacious solar powered workshop in Liverpool (right).

Once the lock-down was lifted, Rob and Holly resumed their journey, heading south towards Ailefroide, a charming village and renowned rock-climbing destination in the Dauphiné Alps.

While in Briançon, with dwindling funds, Rob happened into a jewellery shop, known as Mano à Mano in the old town. After striking up a conversation with the owners, they agreed to purchase 15 pairs of earrings to test the waters. To Rob's, a mere seven days later, they called him back with excitement: "Hey man, we need more stock, we've sold everything!"

"Hey man, we need more stock, we've sold everything!"

Returning to the shop, they took 75 pairs this time. Rob was elated and set off with Holly down the beautiful Vallee de La Clarelée and found a peaceful park up where he set up his studio and began designing earrings. He didn't expect to hear from the shop again, so was genuinely shocked 3 weeks later to receive a call asking for more jewellery. This was the turning point when he realised the immense potential in selling his jewellery wholesale to retailers. This marked his first venture into B2B operations.

From then till now Skaüswood has continued to flourish and takes pride in being a contemporary, responsible and design-driven accessory brand.

Today, Skaüswood operates from a spacious studio in Liverpool, where they've graduated from the confines of a van. Their original laser cutter is now accompanied by two larger machines, affectionately known as Mama Bear and Papa Bear. Despite these upgrades, one thing remains constant - all of their laser cutters are powered entirely by solar energy.

One thing remains constant - all of their laser cutters are powered entirely by solar energy

To this day, Mano à Mano remains a loyal and regular customer, and Holly continues to be a trusted companion on their journey. You'll also notice that our logo is adorned in Holly Teal, a homage to our faithful four-wheeled friend.

The Marvelous Silver Birch

Nature's Gift to
Holistic Wellness
and Craftsmanship

Here in our **Skaüswood** studio we work exclusively with Birchwood for all of our Jewellery. The Silver Birch, scientifically known as *Betula Pendula*, is an elegant tree that holds profound significance, extending beyond its presence in forests to encompass holistic health benefits and centuries-old beliefs.

Holistic & Health Benefits

Air Purity & Birch Sap

Silver Birch trees excel at purifying the air, removing pollutants and creating a cleaner, fresher environment. Birch sap, harvested in early spring, is a natural tonic abundant in vitamins and minerals. Consumed for centuries in Northern Europe and Asia, it is renowned for its detoxifying properties.

Therapeutic Bark

The healing properties of birch tree bark have been utilized in traditional medicine. Birch bark contains salicylates, akin to aspirin, providing natural pain relief and anti-inflammatory effects. It's applied topically to alleviate conditions such as arthritis and muscle pain.

Ancient Beliefs & Symbolism

Pagan Traditions

In ancient Celtic and Norse cultures, the birch tree symbolized new beginnings, purification, and protection. Birch twigs were used to ward off evil spirits, and birch trees represented renewal and growth.

Slavic Mythology

Slavic folklore saw the birch tree as a symbol of femininity and protection, guarding against malevolent spirits and playing a vital role in various rituals and festivals.

Native American Culture

Many Native American tribes esteemed the birch tree as a symbol of strength and resilience. Its bark was instrumental in crafting canoes, shelters, and tools, reflecting its crucial role in daily life.

Why we choose Birchwood

Aesthetic Versatility

Birchwood's consistent grain and light hue let us create unique finishes using stain, including Ebony (Black), Mahogany (Brown), and Natural (Clear oil), highlighting its natural beauty.

Durability and Workability

Birchwood's durability and ease of manipulation have made it a favourite of craftsmen and artisans for centuries. Its versatility extends to both traditional hand-craftsmanship and modern techniques, such as precision laser cutting, making it a prized material for us at Skaüswood.

Eco-Friendly Sourcing

Our Birchwood is responsibly sourced from Forest Stewardship Council (FSC) certified forests, ensuring environmentally-conscious practices.

We take immense pleasure in working with Birchwood daily, appreciating its natural, sustainable, and tactile qualities and believe that our customers share this appreciation when they wear their special pieces.

The Living Hinge Collection

For the past five years, the Living Hinge range has consistently held its position as our best selling line of earrings.

This collection represents the perfect fusion of design and engineering, resulting in a harmonious blend of elegance and durability.

These lightweight earrings are not only built to last but also exude an immediate timeless appeal that keeps

customers returning, time and again.

Careful consideration of colour, and hundreds of test studies have resulted in a select few combinations that beautifully compliment each other, and most importantly your customers outfit.

Made from sustainably sourced FSC certified Birchwood, the living hinge is an engineering technique where by cuts are made to the Birchwood that allow it to bend in a 180° fashion,

turning a flat section of wood into an elegant 3D form.

The Living Hinge Collection consists of 3 ranges, Tear-drop (right), Triangles, and Chevron/Trees/Hills.

These 3 ranges try to accommodate all, **Tear-drop** for the stylishly understated, **Chevron** for the slightly bolder yet elegantly sleek and **Triangles** for the Bold who aren't afraid to stand out with a pair of statement earrings.

Adventures Before Tea

Scenes of nature,
Inspired by nature,
Handmade from nature.

Adventures Before Tea was designed in the French Alps during Lock-down whilst Rob was travelling in his Camper-van/mobile art studio with the original solar powered laser cutter.

Although initially inspired by the Alps, the range has since taken further inspiration from the Lake District, in Cumbria, UK.

There's a certain magic that comes from designing in the heart of the places that inspire you. Thankfully this is made possible with the use of a mobile studio.

The range started off as a simple pair of mountain and crescent moon earrings, over the past three years it

has grown to include sunrise earrings along with 4 pendants each with different scenes of adventure in nature, including a climber, a hiker, a campervan and a tent and camp fire.

“Would you like an adventure now, or would you like to have your tea first?”
J.M Barrie - Peter Pan

Individually hand painted and carefully assembled from as many as 8 separate pieces, (see page 25).

Adventures Before Tea are often described as miniature pieces of wearable art.

Due to the hand painted nature of these pieces and the way they are prepared, each is individually unique and, just like the mountains portrayed within them, no two will ever be the same.

Our customers really appreciate this and say it adds to the feeling of personal exclusivity that comes with small batch, hand-crafted jewellery. Whether to be worn, gifted, or to be hung around the rear view mirror of an ageing camper-van, these earrings and pendants serve as a symbol of motivation and a gentle reminder to get out into the great outdoors a little more often.

Paua No.7

The Maori believe wearing Paua strengthens the body and heart, enhancing clear communication and fostering relationship harmony.

Paua No.7 represents our most sophisticated range. The delicate inlay of shell into Birchwood harmoniously combines two of nature's most exquisite materials.

This results in a stunning collection of 24 pairs of earrings and pendants that serve as captivating conversation pieces.

Paua shell (named Abalone in the West), native to New Zealand, is prized in jewellery for its vibrant, iridescent colours and unique patterns. Its shimmering blues, greens, and purples create eye-catching pieces, and you can be certain each individual item in our Paua No.7 range is one-of-a-kind.

Paua shell's durability and resistance to fading have made it an ideal choice for jewellery for centuries, ensuring long-lasting, stunning designs that capture the beauty of the ocean.

Paua shell was, and still is, incredibly important to the Maori people who hold the ancient belief that wearing the shell helps bring harmony to relationships.

We proudly source our Paua Shell from Sustainably Managed Paua Farms in New Zealand.

The Woodland Collection

The Woodland Collection is an exquisite series of meticulously hand-painted drop earrings, pendants, and studs. Just as “Adventures Before Tea” captures the grandeur of nature at the macro level, the Woodland Collection delves into its intricate details.

Within this range, each piece serves as a delightful homage to the world of flora, fauna, and botanics. Taking a leisurely stroll through the woodlands, you’ll encounter Mushrooms, Flowers, Leaves, and Butterflies. These enchanting elements are crafted from sustainably sourced FSC Certified Birchwood and carefully hand-painted and assembled at our workshop in Liverpool, UK.

This collection showcases the beauty of nature’s small wonders, preserving them in artisanal jewellery pieces that are both sustainable and breathtaking. Each item in the Woodland Collection is a testament to our commitment to quality craftsmanship and eco-consciousness.

Flowers

Flowers continues the theme of nature established in the Woodland collection, offering delicate adornments for your ears. While the Woodland collection emphasizes natural aesthetics, Flowers places greater emphasis on harmonious colour combinations, focusing on the five-petalled flower's singular form.

These playful, lightweight drop earrings are a splendid way to welcome the arrival of spring, showcasing two vibrant colours in each pair, making them a versatile addition to your customers wardrobe.

THE
PACHAMAMA
RANGE

Pachamama earring range was directly inspired by a collection of leaves on the forest floor on an autumn afternoon.

The earring itself takes the form of a leaf, and its veins take the form of an array of smaller leaves upon the ground.

The style was an instant hit and so was born the Pachamama range.

Here are 9 of our best selling earrings from this range featuring a selection of vibrant colours.

SKU-070102

THE CLASSIC COLLECTION

The Classic Collection is a stylish range of larger drop earrings. The beauty of this range is in the simplicity of its form and the subtle use of repetition.

Currently consisting of 6 designs, this range of Birchwood earrings is available in our three standard wooden finishes, along with the ten painted colours we work with, all of which are numbered below. A small selection is shown here, but we invite you to get creative and make your own combinations by replacing the final two numbers from each product code with the chosen corresponding finish below.

- Diamond** 0801XX
- Curls** 0802XX
- Aztec** 0803XX
- Lotus** 0804XX
- Kris-Cross** 0805XX
- Hoops** 0806XX

- | | |
|---------------|----------------|
| Natural (01) | Yellow (07) |
| Mahogany (02) | Teal (08) |
| Ebony (03) | Dark Blue (09) |
| | Cerise (10) |
| Red (04) | Purple (11) |
| Orange (05) | Grey (12) |

OUR SUSTAINABLE PRACTICES

At Skaüswood we will only ever talk about our environmental roles by giving clear examples of exactly what we do and what environmental principles we are trying to implement.

We're aware we still have a distance to go before becoming a Carbon negative company, but we are extremely proud of our efforts to make the most sustainable choices available to us when we can, and of the impactful changes we have already undergone in recent years. Here's a few of the positive changes we have made in the past year;

Recycled Boxes & Packaging

All of our jewellery boxes are now:

- made from 100% recycled materials
- 100% recyclable, biodegradable & compostable after use
- made using only water based inks
- soft insert made from recycled white non-tarnish eco-fibre

For our gift wrapping service we now use:

- satin ribbon made from 100% recycled plastic bottles
- 100% recyclable after use

When posting our products direct to consumer we now use;

- 100% compostable mailing bags made from Cornstarch
- European Standard EN 13432 compliant

Solar Powered Laser Cutters

This year we've gone back to our roots and upgraded our studio, all of our Laser Cutters are now:

- Powered 100% by an 11KW Solar Power system (55 x 200w panels)

Sustainably Sourced Materials

In 2023 we started working with a new supplier, and now all of our Paua shell is:

- Sourced from a sustainably managed Paua farm in New Zealand

The shell itself is a by product of the food industry.

Whilst we have made a lot of improvements in our environmental practices over the past year, we have already been on this path for some time, other actions that we already implement are:

Our core material of choice is Birchwood, and we are proud of the fact that we source 100% of our timber from:

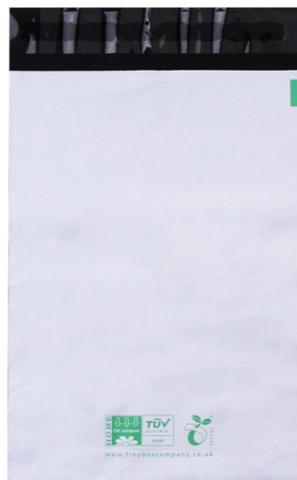

- FSC® Responsibly Sourced Forests from local suppliers

Waste reduction

One big problem with the fashion and jewellery industry is the over production of stock for which there is no demand.

This can be a huge drain on materials, resources, energy and the environment and results in 'Fast Fashion'.

- All of our jewellery is made to order. We strive to work to a 10 working day lead time from order to post.

First Order

- Minimum order Value of **£300.00**
- Proforma Invoice
- Free Shipping

Point of Sale

We offer exclusive point of sale stands and display units for use in your shop.

Repeat Orders

- Minimum order Value of **£150.00**
- 30 Day Credit Payments from Invoice date
- Free Shipping on orders over £200.00. £5.00 on order below.

All of our partners who utilise these displays within their retail spaces have reported increased sales. Speak to us about our customised Skaüswood display stands & accessories.

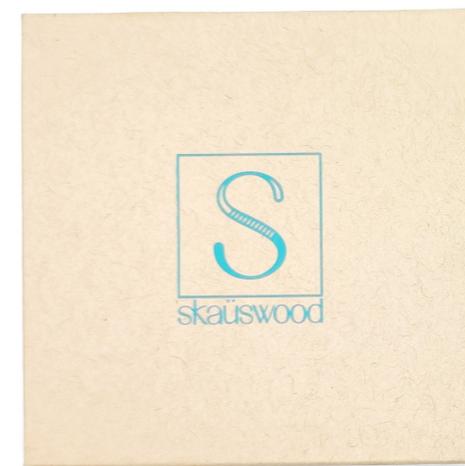

Trade Accounts

We know that running a business is a juggling act and dealing with multiple stockists is a full time job in it's own right, we want to make your interactions with Skaüswood as smooth and efficient as possible.

up to date wholesale catalogue, place orders, see your previous orders and more.

When retailing at our RRP all of our products return a 2.7/2.8 Markup.

As a special Skauswood partner you will get the benefits of our dedicated online B2B account allowing you to view our

Our Returns Scheme

We know it can sometimes take a while for pieces to find their rightful owner, and in the meantime they can be hanging around your space.

We also know you may like the look of something but can't be sure that your customers will feel the same way.

To help with this in 2024 we will be introducing our **'Returns Scheme'** where by our partners will be able to return a selection of there existing Skaüswood stock with each new order placed **(up to a maximum value of 10% of the new order).**

Example:

- You place a new order worth £450.00
- Value of returned items should be no more than £45.00.

How it works

- place a new order on our website and notify us via email that you would like to action a return. Provide us with a list of the returning items along with the original invoice. Once we receive and verify this we will confirm the value of the items. *(we will use the original prices you paid to value the items).*
- The returned items should reach our workshop within a maximum of 7 working days.
- Once we receive your parcel we will carefully check over each item individually. Once completed we will issue you with a credit note to the value of the corresponding goods returned and the invoice for your new order. The total amount you will pay will be the difference between them.

All returning transactions must be as part of a new order.

We do not accept individual exchanges or returns.

We request you notify us about a return ASAP when placing a new order.

We will need original invoice and invoice number in order to process a return.
